Monarch/MKULTRA/SRA Child Abuse

There was trauma done in the form of being stuck with pins and needles, being burned, hung by my feet - sometimes to crosses, spun, dropped off a table as an infant, near drowning, sexual abuse and orgies, being drugged, food and sleep deprivation, and then adding to that when I was around five, was all of the military mind control that was done with very sophisticated instrumentation and chairs and electroshock Interview: Brice Taylor (Sue Ford)

Power was obtained over Children and used to destroy their spiritual and emotional growth. This was done so these men might defend and preserve their own sick selves and their notions of right and wrong. Fragmentation of these Children's minds was accomplished by using: Torture, Humiliation, Degradation, Guilt and Emotional and sexual abuse. Experiments were laced with drugs, radiation, hypnosis, ECT and in some cases stereotaxic equipment. The daisy game, which was scary for a child, heightened the victim’s attention. Matrixes were built upon this deadly game. How did it feel to be programmed with Mengele’s "I love you, I love you not" programming? A victim recalls, "The child was placed in a cage exposed and naked. The low voltage wires were rigged to the metal of the cage. The child experienced a continual erratic or sporadic prolonged voltage of shock until the heart would pulsate and the anxiety level of the child became out of control. "Then the Dr. would enter the scene with his sneering taunting smile while holding a daisy in his hands. The sporadic voltage would continue to flow through the child’s body. As the shock continued, the Dr. stood before the child pulling petals off the daisy. His only communication was voiced in these words, "LOVE YOU, LOVE YOU NOT, LOVE YOU, LOVE YOU NOT," while pulling off the daisy petals. This action would drive the child crazy because the child knows full well if that last petal is pulled off it meant death. The child that is not loved is skipped alive before the other children. "...we can now begin to understand that the expendable children were in other cages placed all around us for the eye to see. They went through the same process as we watched. When the last petal of the daisy was pulled from the flower they were killed. The Illuminati Formula 11. Internal Controls

The initial process begins with creating dissociation within the subject, usually occurring from the time of birth to about six years. This is primarily achieved through the use of electroshock (ECT) and is at times performed even when the child is in the mother’s womb. Due to the severe trauma induced through ECT, sexual abuse and other methods, the mind splits off into alternate personalities from the core Ron Patton (Project Monarch: Nazi Mind Control)

Gunderson had this to say: "The Finders-A CIA front established in the 1960's. It has top clearance and protection in its assigned task of kidnapping and torture-programming young children throughout the U.S. Members are specially trained government kidnappers known to be sexual degenerates who involve the kidnapped children in satanic sex orgies and bloody rituals as well as the murders of other children and slaughter of animals.

They use a fleet of unmarked vans to grab targeted children from parks and schoolyards. In doing so they use children within their organization as decoys to attract the victims close to the vans where they are grabbed by adults. They then drug the children and transport them to a series of safe houses for safe keeping. They are then used in their ceremonies for body parts, sex slaves and some are auctioned off at various locations in the northern hemisphere. In the past they have been auctioned off near a location in Nevada and Toronto, Canada. Marion David Pettie, the leader of the cult, is an identified homosexual pedophile and a CIA officer. His son was an employee of a CIA proprietary firm, Air America, which was notorious for smuggling drugs, destined for the U.S., out of the Golden Triangle into Saigon during the Vietnam war." That is a very significant piece of evidence here. That shows that as early as 1964, the CIA was in fact experimenting ... or a person with probable CIA connections ... was experimenting on young children with LSD and other similar drugs. The CIA, Mind Control & Children: A Talk by John Rappoport
Valerie Wolf, a therapist and two of her clients, Claudia Mullen and Chris Denicola. God only knows how they got in and testified. I have heard the story from Valerie, and I still don't even believe it, but ... basically she told me the screener up there, the person who was screening applicants to speak about cruel and unusual radiation experiments on Americans ... she said, well I have clients and they are saying that some of these doctors who administered radiation, administered mind control to them so we want to talk. And they said okay. They testified, from what I can gather, for a very short period of time verbally. They submitted a lot of testimony to the Committee from other therapists and other patients, and they somehow got in ... nobody knows how ... but they got in and that opens a certain kind of door for us, because it puts it on the record and it gives it a certain legitimacy and what these patients essentially said was, from the time they were 4 years old, 7 years old, they were tortured by the CIA and the military. You can call it something more sophisticated, but it really isn't. It involved electroshock, physical torture, lights, spinning tables, hallucinogenic drugs, sleep deprivation, isolation tanks, hypnosis, mind programming with commands, layers of trauma that induced buffer zones of amnesia between the traumas, and essentially thereby created multiple personalities. As one psychological theory has it, if you induce enough trauma, you get a split in the personality because the person can't face the pain, so they put that part out of it, and they come with a new personality. If you keep doing it, you invoke or create different personalities, and then if you are the CIA you try to program these sub-personalities to do different things like memorize information photographically and not remember it, do courier operations, assassinations, sex agents, blackmail operations, all of this. What they basically do is they will get a child and they will start this in basic forms, it appears, by about two and a half after the child’s already been made dissociative. They’ll make him dissociative not only through abuse, like sexual abuse, but also things like putting a mousetrap on their fingers and teaching the parents, “You do not go in until the child stops crying. Only then do you go in and remove it.” They start in rudimentary forms at about two and a half and kick into high gear, it appears, around six or six and a half, continue through adolescence with periodic reinforcements in adulthood.

They will then begin and they would say to her, “You are angry with someone in the group.” She’d say, “No, I’m not” and they’d violently shock her. They would say the same thing until she complied and didn’t make any negative response. Then they would continue. “And because you are angry with someone in the group,” or “When you are angry with someone in the group, you will hurt yourself. Do you understand?” She said, “No” and they shocked her. They repeated again, “Do you understand?”—“Well, yes, but I don’t want to.” Shock her again until they get compliance. Then they keep adding to it. “And you will hurt yourself by cutting yourself. Do you understand?” Maybe she’d say yes, but they might say, “We don’t believe you” and shock her anyway. “Go back and go over it again.” They would continue in this sort of fashion. She said typically it seemed as though they’d go about thirty minutes, take a break for a smoke or something, then come back. They may review what they’d done and stopped, or they might review what they’d done and go on to new material. D. Corydon Hammond, Ph.D.

The way they did this was they strapped her down and they gave her LSD when she was eight years old. When she began hallucinating they inquired about the nature of the hallucinations, so they could utilize them in good Ericksonian fashion, and build on them and then combine the drug-effect with powerful suggestions. “If you ever get to this point you will go crazy. If you ever get fully integrated and get well you will go crazy like this, and will be locked up in an institution for the rest of your life.” They gave those suggestions vigorously and repetitively. Finally they introduced other suggestions that, “Rather than have this happen, it would be easier to just kill yourself.” In a bloodline patient then, as I began inquiring about deep material, the patient started to experience similar symptoms. We went back and we found the identical things were done to her. D. Corydon Hammond, Ph.D.

Here are some of the types of instructions that are given: ......Giving daily doses of prolonged isolation, such as dark closets, dark cellars, the corners of dark rooms. During the prolonged isolation, the child cannot turn on the lights, go to the bathroom, make a noise or anything else. The child will learn to dissociate. The child is also trauma bonded to the abuser because each time the child is let out, it is grateful to the abuser. The child can be drowned in a pool and then resuscitated—and the exact amount of time to keep the child under will be given. The child can be placed in a freezer, and again the exact amount of time can be given to the parent.

The child is not to roam about the house freely. The adults’ area is off-limits. The child must move with
permission. Systematic punishment without provocation with the message--keep secrets. Hear no evil, see no evil, do no evil. This needs to be done several times a week to reinforce the codes of silence and the programming for silence. A needle which is gripped halfway up is stuck into the child a quarter inch deep on the child’s muscles, buttocks or thigh to help continue dissociative behavior. On special occasions (birthdays, holidays) the hands and feet which are most sensitive to pain are stuck. When the feet or hands are stuck, they will often stick the needles under the nails. The ears are also on occasion stuck with needles. It also conditions the child to obey the commands of her handlers, who will use needles to access the minds various personalities. Various spots on the body when stuck with needles along with certain codes become access points for certain alters. Anytime a child argues, has a temper tantrum, or gets angry the child is to be slapped in the face. This is a quick trauma. It is to be followed with a lighted cigarette applied to the child to burn the skin the second the child gets submissive from the slap. If a cigarette can’t be found, a stove top or some other hot item is to be found. At four years of age, the child begins programming to burn itself. If there are any bruises showing, the child can be kept home for a day or two. Anytime the child becomes willful it is to have its mouth washed out with soap. The child should be made to chew off a piece and swallow the foam. The child should be raped daily and then tortured. This helps with the sexual programming later, and begins a reversal in the mind that pain is love, and pain is pleasure.

Some of the first memories that female Monarchs recover are their memories of their fathers raping them. The Illuminati Formula 4. The Use of Hypnosis

China Lake Naval Research Base (Inyokern), CA--This facility had a country store, and hangers, and a hospital (address for the hospital is the code- 232 Naval Air Weapons Station) which all provided sites for programming. This site has been operational since the early 1950s. Large numbers of children (batches of 1000 or 2,000 or 3,000 children were run through this facility at a time. This facility did much of the original traumas and mind-splitting tortures that created the MPD. Other facilities then specialized in further programming that was then layered in on top of the original China Lake programming. A great deal of dehumanization in cages was done to large numbers of tiny children at China Lake Naval Facility. The Illuminati Formula Appendix I: The Programmers
